Dear Prof. Moldovan,

We are pleased to inform you that your poster is accepted to be presented in the Inauguration of UNESCO Chair on Preventive Conservation, Monitoring and Maintenance of Monuments and Sites, 24th to 25th of March 2009, Leuven. Your abstract has many important concerns, and we would like you to address primarily the aspect mentioned in your abstract " It appears as obvious that a patrimony without a community which may outpass a certain critical mass is extremely vulnerable. A hope and an opportunity, resulting from this, comes from the contemporary movement by which architecture has turned from resource-consuming (according to the traditional anthropological school of the 20s-from the pyramids to The House of The People) into resource-generating". It may be most connected to our main scheme, preventive conservation.

Please edit your poster on our layout (see the attached ppt file) and follow the guidelines (see the attached doc file), and send to me, Drs. Hsien-yang Tseng ([hsienyang.tseng@bwk.kuleuven.be](mailto:hsienyang.tseng@bwk.kuleuven.be)) before the 13th of March. If you have any question please contact me through this email anytime.

We are looking forward to seeing you in the inauguration.

Best regards,

Hsien-yang Tseng

Dear Prof. Moldovan,

Thank you very much for submitting your poster abstract. We will make the final selection of posters on 27th February and then provide you the further information. We are looking forward to see you in the inauguration.

Best regards,

Hsien-yang Tseng
