

**We invite all partners of NET-HERITAGE to contribute to a
poster session**

**at the conference “Increasing Europe’s competitiveness through
cultural heritage research. An initiative of the project NET-HERITAGE”
March 24th 2011, Committee of the Regions Building, Brussels**

- We invite **every** partner to send us up to two posters that briefly summarise results of two recent research projects from their country.
- The posters should present results of research projects in cultural heritage research to the audience (policy makers from all over Europe).
- You can choose which projects you want to present.
- We would be glad if in the text you would underline concrete results and show the benefits of (international) cooperation for cultural heritage research.
- We propose that you contact research institutes/universities in your country and forward them the formal requirements.
- In order to guarantee a common appearance the following parameters should be considered:
